PROFESSIONAL SUMMARY

Computer Science professional with a strong technical foundation in software development, APIs, and system troubleshooting, combined with excellent communication and problem-solving skills. Experienced in collaborating with clients and cross-functional teams to understand technical needs and deliver effective solutions. Focus on helping businesses adopt the right technology to improve efficiency and performance.

CORE COMPETENCIES

- AI-Assisted Development (Prompting, Code Review, Debugging Support)
 - Full-Stack Development Fundamentals
 - Feature Development & Debugging
 - API Integration & Testing
 - Database Querying (SQL)
 - Version Control (Git/GitHub)
 - SDLC & Agile Methodologies
 - System Analysis & Troubleshooting
-

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer Intern

Grid Dynamics, Kingston | *June 30, 2025 – December 30, 2025*

- Supported software development lifecycle activities, including feature validation, debugging, and API integration testing

- Tested and validated REST APIs using Postman, analyzing responses, status codes, and error handling to ensure system reliability.
 - Collaborated in Agile workflows, participating in test planning, sprint activities, and continuous improvement discussions.
 - Developed and maintained structured test cases supporting functional, regression, and integration testing.
 - Gained exposure to backend communication using Retrofit and OkHttp, improving understanding of client-server interactions.
 - Used Selenium to support automated regression test execution.
 - Worked with CI/CD pipelines, understanding how automated testing integrates into build and deployment workflows.
 - Documented test results and logged defects, supporting tracking and retesting through resolution.
 - Leveraged AI tools to assist with test case generation, debugging insights, and improving documentation clarity.
 - Collaborated with developers to clarify requirements and resolve defects.
 - Communicated testing progress, risks, and blockers.
-

Computer Technician (Part-time)

Florville Pharmacy, Yallahs | *July 2022*

- Diagnosed and resolved technical issues while communicating solutions clearly to non-technical users, ensuring smooth daily operations and customer satisfaction.
 - Performed system updates, basic software configuration, and troubleshooting.
-

Volunteer Lab Technician

Yallahs High School, Yallahs | *September 2020 - November 2020*

- Troubleshoot and repaired computer systems for students and teachers.
 - Assisted with basic network setup and maintenance.
 - Entered and recorded student information.
 - Assisted students and teachers with the E-learning platform.
-

Grocery Clerk (Part-Time)

Stop & Shop, Orleans | *May 2023 – Aug 2023 & May 2024 – Aug 2024*

- Provided consistent customer service in a fast-paced environment.
 - Demonstrated strong communication skills, attention to detail, and adaptability.
-

PROJECTS

Nature's Beauty Website (Wix)

- Designed and deployed a responsive website using Wix.
 - Customized layout and content to improve user experience and accessibility.
-

ADDITIONAL HIGHLIGHTS

- Experience working in Agile Scrum environments
 - Exposure to CI/CD pipelines and DevOps practices
 - Strong focus on code quality, testing, and documentation
-

TECHNICAL SKILLS

- **Programming:** Java, Python, JavaScript, PHP (foundational), SQL (MySQL, PostgreSQL).
- **Web & APIs:** HTML, CSS, React, REST APIs, Retrofit, OkHttp, Postman.
- **Tools & DevOps:** Git, GitHub, Jira, Jenkins, Docker, CI/CD Foundations, Microsoft Office.
- **Cloud:** Google Cloud Certified (Cloud Digital Leader).
- **Methodologies:** SDLC, Agile, and Debugging.
- **Types of Testing:** Functional Testing, Regression Testing, Integration Testing, API Testing, Manual Testing, Automated Testing (Selenium)

SOFT SKILLS

Problem-Solving, Clear Written & Verbal Communication, Attention to Detail, Analytical Thinking, Team Collaboration, Time Management, Adaptability

EDUCATION

Bachelor of Science in Computing (Computer Science)

University of Technology, Jamaica

Graduated: November 2024

Upper Second Class Honours

High School Diploma

Merl Grove High School

Graduated: 2020

St. Hugh's High School for Girls

Graduated: 2018

-
- Google Cloud Cloud Digital Leader: Google (Dec 2025 - Dec 2028)
 - DevOps: Agile CI/CD Process for Professionals and Teams - Udemy (Dec 2025)
 - Relational Databases and SQL: Complete Guide for Developers: Udemy (Sept 2025)
 - API Security Fundamentals: APIsec University (Jul 2025)
 - OWASP Top 10: Snyk (Jul 2025)
 - DevOps Foundations: LinkedIn Learning (Jan 2025)
 - Cloud Architecture Core Concepts: LinkedIn Learning (Dec 2024)
 - Introduction to Career Skills in Software Development: LinkedIn Learning (Dec 2024)
