PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience in full-stack development, software testing, and REST APIs. Skilled in React, Next.js, TypeScript, and PostgreSQL, with experience building and testing web applications. Eager to learn new technologies and contribute to reliable, user-focused software solutions.

SKILLS

- **Quality Assurance:**
Manual Testing, Automated Testing, Web & Mobile Testing, API Testing, Test Case Design, Test Documentation, Defect Tracking, Functional Testing, Regression Testing, Exploratory Testing, Selenium, Playwright, TestNG, Allure Reports
- **APIs & Databases:**
Postman, REST APIs, HTTP, JSON, Retrofit, OkHttp, Basic SQL, MySQL, PostgreSQL, Prisma
- **Programming & Web Development:**
Java, Python, JavaScript, TypeScript, PHP, HTML, CSS, React, Next.js, Tailwind CSS
- **Tools & Technologies:**
Jira, Git, GitHub, Jenkins, Docker, CI/CD
- **Technical Support:**
Troubleshooting, Microsoft Windows, Microsoft Office Suite, Zendesk Fundamentals
- **Soft Skills:**
Problem Solving, Analytical Thinking, Attention to Detail, Teamwork, Adaptability, Time Management, Active Listening

PROFESSIONAL EXPERIENCE

Quality Assurance Engineer Intern, Grid Dynamics, Kingston Jun 2025 - Dec 2025

- Developed and maintained 90+ manual and automated test cases for web, API, and mobile testing exercises.
- Designed and executed automated tests using Selenium and TestNG, reviewing results through Allure Reports.
- Validated REST API endpoints using Postman, verifying HTTP responses, functionality, data integrity, and error handling.
- Gained hands-on exposure to API automation using Retrofit and OkHttp and used basic SQL SELECT queries to verify relational data.
- Applied functional, regression, exploratory, black-box, boundary value, equivalence partitioning, and state-transition testing while documenting reproducible defects and test results.

- Created testing documentation, including test cases, test plans, and test strategies, and participated in Agile sprint meetings and test-planning activities.
- Gained introductory CI/CD exposure using Jenkins, GitHub Actions, and Docker.

Volunteer Lab Technician, Yallahs High School, Yallahs Sept 2020 - Nov 2020

- Troubleshoot computer systems, software, internet connectivity, and basic network issues for students and staff.
- Performed routine computer maintenance and assisted with basic hardware identification and assembly.

EDUCATION

University of Technology, Jamaica 2020 - 2024

Bachelor of Science in Computing

- Upper Second Class Honors

CERTIFICATIONS

- Google Cloud Digital Leader - Google Cloud (Dec 2025 - Dec 2028)
- API Security Fundamentals - APIsec University (Jul 2025)
- OWASP Top 10 - Snyk (Jul 2025)
- DevOps Foundations - LinkedIn Learning (Jan 2025)
- Cloud Architecture: Core Concepts - LinkedIn Learning (Dec 2024)

PROJECTS

IssueFlow · Full-Stack QA & Defect Tracking Application

Next.js, React, TypeScript, Prisma, PostgreSQL, Playwright

- Built and deployed a full-stack QA platform using Next.js, TypeScript, Prisma, and PostgreSQL, supporting defect tracking, test management, evidence uploads, and analytics.
- Implemented 3-role RBAC for Admin, Tester, and Developer users with role-specific permissions, assignment, retesting/reopening, and activity tracking.
- Developed and executed a 21-test Playwright E2E regression suite and release smoke checks covering authentication, RBAC, defect workflows, search/filtering, pagination, and release-critical functionality.

Full-Stack Portfolio · Interactive Developer Portfolio

Next.js, React, Three.js, GSAP, Nodemailer

- Built and deployed a responsive portfolio featuring interactive 3D elements, animations, and project showcases using Next.js, Three.js, and GSAP.
- Implemented backend contact-form functionality with Nodemailer and independently troubleshoot deployment and application issues.

ADDITIONAL INFORMATION

Languages: English (Fluent), Spanish (Basic)

Awards/Activities: SCIT Mentor (2022), Basketball, Dancing, Painting, Video Games
